

New Model Course in Applied Quantum Physics

 Indicates a research-demonstrated benefit

Overview

Resources for teaching introductory quantum mechanics and modern physics with an emphasis on concepts and applications.

Type of Method

Curriculum supplement, Tutorials

Level

Designed for: Intermediate 

Can be adapted for: Teacher Prep Course, Teacher Professional Development, High School, Intro College Calculus-based, Intro College Algebra-based, Intro College Conceptual, Upper-level Undergraduate

Setting

Designed for: Lecture - Small (<30 students), Recitation/Discussion Session, Homework

Can be adapted for: Lecture - Large (30+ students), Studio

Coverage

Many topics with less depth

Topics

Modern / Quantum

Instructor Effort

Medium

Skills

Designed for: Conceptual understanding, Making real-world connections

Research Validation

Based on research into: theories of how students learn , student ideas about specific topics
