

Tools for Scientific Thinking

 Indicates a research-demonstrated benefit

Overview

Laboratory activities that use microcomputer-based laboratory tools to develop both conceptual understanding and quantitative laboratory skills.

Type of Method

Curriculum supplement

Level

Designed for: Intro College Calculus-based , Intro College Algebra-based , High School

Setting

Designed for: Lab 
Can be adapted for: Studio

Coverage

Many topics with less depth

Topics

Mechanics, Thermal / Statistical

Instructor Effort

Low

Resource Needs

Computers for students, Advanced lab equipment, Cost for students, Tables for group work

Research Validation

Based on research into: theories of how students learn , student ideas about specific topics 
Demonstrated to improve: conceptual understanding 
Studied using: research at multiple institutions
