Main view of video and tracks will appear here.  
Choose File|Open or Tracks|New to start.

Plot view of track data will appear here.

### Xuggle not working

The Xuggle video engine is not working.  
The cause of the problem could not be determined.  
Please reinstall Tracker (recommended version 5.0+).

The Tracker installer is available at  
<http://www.compadre.org/osp/items/detail.cfm?ID=7365>

OK

look here for hints (or turn off hints in the Help menu), press F1 key at any time for help

Table view of track data will appear here.
